# WORKSHOP

THURSDAY, SEPTEMBER 19, 2024

Update-Training IQ-V8.0

- I | **Concise overview of the main differences between IQ-V7.0 and IQ-V8.0**
- II | **Open Q&A session**

In order to maintain our leading position in software for *FMEA*, *risk analysis*, and *functional safety* and to extend our lead over the competition, a multitude of improvements and additional functions are realized in each new version of the APIS IQ Software.

To make it easier for you to switch from the previous version to the new software version, we will give you a concise overview of the most important new features and changes in the workshop in order to enable you to work with the new version in a targeted manner.

## Details

- Target group | FMEA supervisors and FMEA facilitators who want to learn about the new feature of IQ-V8.0 in a concise form
- Fees | 660.00 EUR plus VAT  
Dinner the evening before included
- Language | German, no translation
- Details | Via link to Update-Training IQ-V8.0 registration or QR code below
