

APiS North America IQ-Software Virtual Training Calendar – Q3, 2020

The ongoing impact of COVID-19 continues to challenge us all. As a result, **APiS North America** has transformed our business so that COVID-19 will not stop us from supporting you and your team’s projects and growth during these trying and unprecedented times. We have developed our **Web-Based IQ-Software Training and Consulting Programs** over the past 18 months to continuously provide learning and development opportunities that you and your teams have come to know and depend on us to provide.

General Course Info: APiS® IQ SOFTWARE VIRTUAL DFMEA & PFMEA TRAINING

Following the methodology introduced in the recently released AIAG & VDA FMEA Handbook, the Facilitator’s at APiS North America, LLC will walk you through the process in developing a pre-defined DFMEA or PFMEA model using the APiS® IQ Software. Participating in this hands-on training will lead to acquiring the basic knowledge, skills, and attitude to support FMEA development in the APiS® IQ Software. Day 5 of training will now include Advanced Training Topics facilitated by our IQ-Software Expert, Chad Johnson.

NOTE: A trial version of the APiS® IQ Software and learning materials will be provided to all confirmed and paid Participants. Course will be delivered using the Webex platform. Certificate of completion and additional post training support materials and links will be provided to all participants upon course completion. Course enrollment deadline is 14 days prior to the start of the preferred session. APiS NA, LLC reserves the right to limit capacity for each session to ensure learning objectives are met and can cancel any session based on enrollment data.
